

INTRODUCING PowerStack® EPSC+

FACTORY-BUILT CHIMNEY AND SPECIAL GAS VENT SYSTEM

PowerStack EPSC+ is a double wall stainless steel venting system designed with the commercial installer in mind. A factory-installed integral seal and “no-tool” snap-lock assembly, makes it a go-to product for any commercial condensing applications offering reduced installation time for the installer.

- **Competitive pricing**
- **Precision welded construction**
- **4” to 14” diameter options for various applications**
- **Corrosion-resistant 316L-PCM stainless steel**
- **Quick installation with bonded 3-lip elastomer seal**
- **Snap-lock locking band for added rigidity**
- **High-temperature rating up to 480°F**
- **Versatile support components for structural loads**
- **UL 1738 and ULC-S636 listed**
- **Compatible with multiple venting systems**
- **Special components available**
- **ENERVEX 5-Year/10-Year Warranty**

NO SAGGING!

LISTED

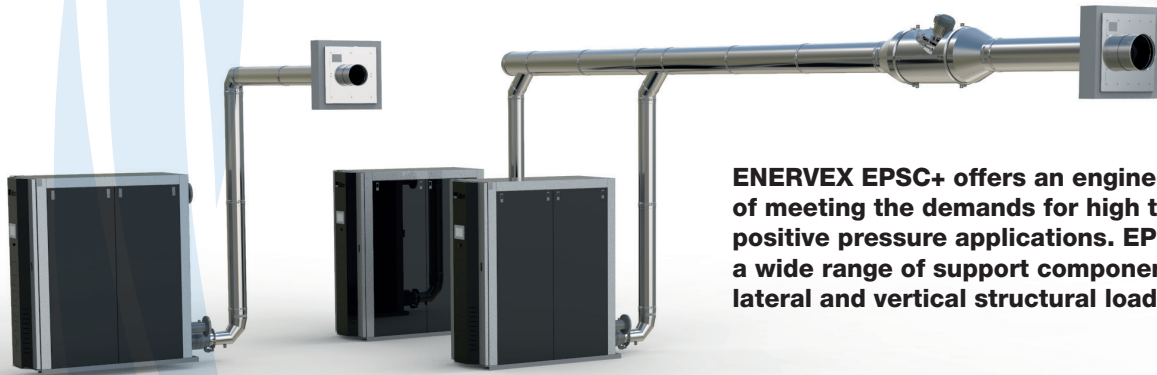

UL File MH64314

Simple. Seamless. Smart.

ENERVEX®
VENTING DESIGN SOLUTIONS

THE COMPLETE SYSTEM

ENERVEX EPSC+ offers an engineered system capable of meeting the demands for high temperature and positive pressure applications. EPSC+ is available with a wide range of support components that cater for both lateral and vertical structural loading of the products.

WHY ENERVEX

ENERVEX is the most innovative supplier of chimneys and mechanical draft systems in the world. ENERVEX creates original innovations that have a purpose.

Every ENERVEX solution is built from the ground up with careful evaluation of the unique cost variables and long-term savings. Through superior manufacturing innovation and decades of experience, we're delivering highest quality, listed and certified venting solutions.
